

2023 National In-Person Conference Sponsorship Opportunities
 June 23-25, 2023 / Chicago, Illinois

The mission of the Gorlin Syndrome Alliance is to thoughtfully support, comprehensively educate, and aggressively seek the best treatments and a cure for those affected by Gorlin syndrome.

The most burdensome manifestation of Gorlin syndrome is **basal cell carcinomas**. Some individuals will have over 1,000 in their lifetime.

Protecting themselves from the sun by wearing sunblock and sun-protective clothing is an essential component of everyday life for people with Gorlin syndrome.
