

## First Ever Gorlin Syndrome Research Grant Award!

The GSA launched its research grant program early this year with the goal of providing financial support for impactful research into Gorlin syndrome and its manifestations.

On Friday, June 23, 2023, Executive Director, Julie Breneiser presented the award certificate to Dr. Brian Cahn for his and Dr. Murad Alam's work. With a panel of over 125 disease experts in dermatology and other specialties as well as affected individuals and parents, they are working to develop and publish,

**“Clinical Practice Guidelines for the Management of Basal Cell Carcinoma in Gorlin Syndrome”.**

The GSA is *proud* to support this important work.  
CONGRATULATIONS AND THANK YOU DRs. CAHN AND ALAM!

---

**Dr. Murad Alam**  
Mohs Surgeon, Dermatology

**Dr. Brian Cahn**  
A dermatology resident at the  
University of Illinois with  
significant interest in Gorlin  
syndrome
